

Naming Opportunity

The Mount Carmel Amphitheater

In celebration of University of Haifa's 50th anniversary, the administration has prepared exciting plans for the construction of a new, multi-use outdoor amphitheater. The amphitheater will serve as the main venue for a broad range of academic, cultural and public events that the University regularly holds, among them national and international conferences, official graduation ceremonies, holiday gatherings, and special events for our annual Board of Governors Meeting.

Haifa's Premier Outdoor Venue

The University's planned amphitheater will offer a breathtaking, panoramic view to northern Israel. With a seating capacity for 3,500, the outdoor facility will provide an expansive setting for larger audiences of students, faculty and visitors for University of Haifa's high-profile events.

ברוכים הבאים

The Mount Carmel Amphitheater

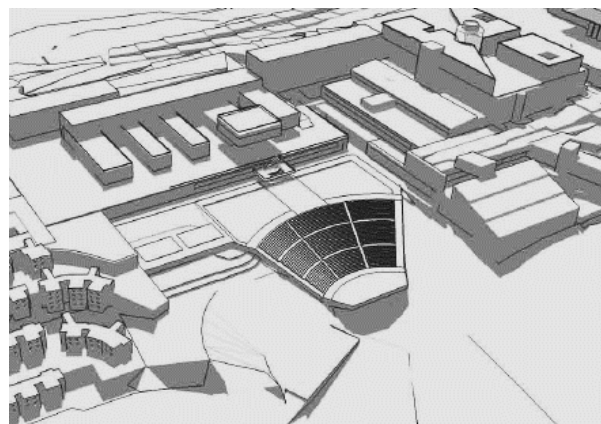

The Mount Carmel Amphitheater

The University of Haifa's campus atop Mount Carmel offers a stunning vista of Haifa Bay and the northern region, a panoramic view that extends as far as Israel's borders. The University of Haifa is far-reaching in its educational vision, encompassing academic excellence, social responsibility and a commitment to developing Israel's northern region. More than 18,000 students, many from Israel's northern communities, attend the University of Haifa.

Juxtaposed between the Hatter Student Building and the student dormitory complex, the new amphitheater will be built into the area's naturally sloping landscape. The structure will spread across 3,000 meters and resemble classic Greek amphitheaters.

A Unique Outdoor Experience

"The new amphitheater will allow us to dream on a grander scale. We will be able to host events on campus that were not previously possible," explains President Ron Robin. "The Mount Carmel Amphitheater will play a significant role in the University's future, and provide our campus and larger community with a vibrant and expansive space to gather and celebrate for years to come."

For visualization purposes only.

The Mount Carmel Amphitheater will be accessible from all points in Israel via public transportation, including the new Haifa Cable Car Project. The venue will be used by Student Associations and University departments, and provide an ideal setting for the Board of Governors' annual Honorary Doctoral Conferment Ceremony. The prestigious ceremony is often attended by government ministers, business leaders and scientists, and world-class artists and literary figures.

A Naming Opportunity

University of Haifa invites you to partner with us on this inspiring and important capital project.

Donor Recognition

Naming a facility at University of Haifa is a wonderful way to leave a legacy on our campus and provide support for an important initiative. We will be honored to pay tribute to your generosity in the following ways:

- A dedication plaque will be featured in a prominent location at the entrance to the amphitheater.
- Hosting a festive dedication ceremony to celebrate the naming.
- Acknowledging your support in University and media publications.

Join us in building an inspiring venue for academic, cultural and public events.
